

Shutgun *shuts off fire sprinklers fast!*

The world's leading
sprinkler shut off tool

Unique fusible link will release in case of fire – reactivating the sprinkler, keeping your building fully protected

\$55.00

Designed and tested to **shut off activated fire sprinkler heads instantly**, Shutgun is your best defense against the expensive and hazardous effects of water damage.

Tested by UL®, facilities and fire departments.

"There should be a Shutgun in every tool kit and with every fire extinguisher. The Shutgun is the best insurance deal you can get."

Joseph Fisco
- Petra Risk Solutions

Water flowing from a sprinkler head can exceed 25 gallons per minute!

One sprinkler head left running can cost \$1,000 in losses every minute!

It pays to have one in
EVERY TOOL BOX and on EVERY FLOOR!

Simply place the jaws in the opened sprinkler head, stop the water immediately with our trademark, easy one-handed squeeze

Shutgun works on all exposed, semi-recessed, concealed, even broken or sheared sprinkler heads.
